

Ecovacs DEEBOT D35 Side Brushes Replacement

Ecovacs DEEBOT D35 Repair Side Brushes Replacement

Written By: Brian

INTRODUCTION

The spinning brushes are located on the backside of the DEEBOT D35 on the front right and left edge. These brushes pull dirt to the vacuum where it is suctioned up.

TOOLS:

- [iFixit Opening Tools](#) (1)

PARTS:

- [D35 Side Brush](#) (2)

Step 1 — Side Brushes

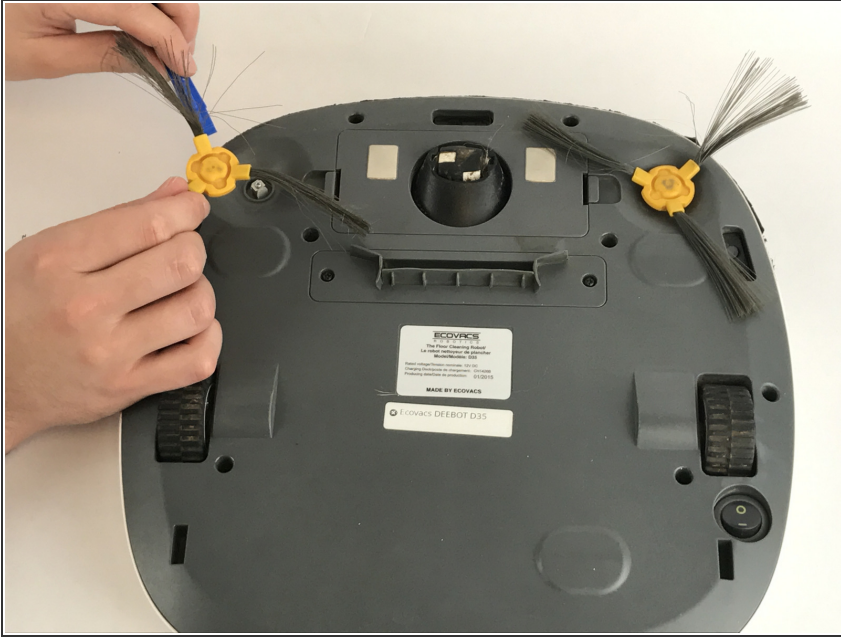

- Roll the Deebot over on a flat surface. The brushes will be located on the front with bright yellow connectors.

Step 2

- Place a plastic opening tool under the lip of the brush head.

Step 3

- Gently pry up with the opening tool so that the brush comes out completely.

To reassemble your device, follow these instructions in reverse order.
